

The decisions being discussed requiring changes in the content, restrictions and operating procedures for radio stations is concerning to me. I want to voice my opinion that the purpose and effectiveness of whatever type of programming will be hindered when 1st amendment rights are denied by trying to give equal time on a specific type of programming to programs which aren't of that venue. While I believe anyone should have a right to be heard, it is ridiculous to think that everyone must have the same opinions or beliefs and all beliefs must be presented on all programs. Please don't make changes that will affect the thousands, millions of people who listen to Christian radio.

Thank you.

Deborah Brosius
